SUMMARY

Software Engineer and MCA graduate with hands-on experience developing full-stack web applications, AI-powered solutions, and database-driven systems. Proficient in React, Node.js, Express.js, MySQL, Python, and Java, with experience building scalable applications featuring authentication, REST APIs, and machine learning integration. Passionate about solving real-world problems through clean, efficient, and user-focused software.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, JavaScript, SQL

Web & Frameworks: React, Node.js, Express.js, Flask, HTML, CSS, Bootstrap, Tailwind CSS, Vite

ML & Data: TensorFlow, Keras, OpenCV, MySQL

Tools & Other: Git, GitHub, Linux, VS Code, JWT Authentication, Bcrypt, XAMPP, Postman

PROJECTS

NephroScan AI – AI-Powered Chronic Kidney Disease Detection

Technologies: Python, TensorFlow, Keras, OpenCV, Flask, React, Vite, Tailwind CSS, Axios

- Developed an **AI-powered full-stack web application** for Chronic Kidney Disease detection using **CNN models trained on CT scan images**
- Implemented image preprocessing and **Grad-CAM visualizations** to deliver explainable, confidence-scored predictions.
- Developed a responsive web interface for secure image upload and **real-time diagnosis**, reducing manual review effort.

QR Forge – Full-Stack QR Code Generator

Technologies: React, Node.js, Express.js, Vite, Tailwind CSS, MySQL, JWT Authentication, Bcrypt

- Developed a **secure full-stack QR Code Generator** supporting Text, URL, Email, Phone, Wi-Fi, Contact, WhatsApp, and Google Maps QR codes.
- Implemented **JWT-based authentication**, developed REST APIs using Express.js, encrypted user credentials with Bcrypt, and maintained QR generation history using MySQL.
- Designed a responsive React interface with reusable components, **QR customization**, logo embedding, **PNG/SVG downloads**, clipboard support, and dark/light theme.

AlgoViz – Interactive Algorithm Visualizer

Technologies: HTML, CSS, JavaScript, Bootstrap

- Developed an **interactive web application** to visualize **Data Structures and Algorithms** through real-time animations, improving conceptual understanding.
- Implemented visualizations for **Bubble Sort, Linear Search, Bucket Sort, Binary Search, Merge Sort, Selection Sort, Fractional Knapsack, and Sum of Subsets** algorithms.

Rental Equipment Management System

Technologies: PHP, HTML, CSS, JavaScript, Bootstrap, MySQL

- Developed a full-stack web application to manage **equipment inventory**, customer bookings, and admin operations via a secure dashboard.
- Implemented **secure user authentication**, booking management, and an admin dashboard for inventory tracking.

EDUCATION

Dayananda Sagar College of Arts, Science and Commerce, Bangalore, Karnataka

Feb 2024 – Nov 2025

Master of Computer Applications (MCA), GPA: 7.60

JMJ BCA College, Sirsi, Karnataka (Karnataka University Dharwad)

Sep 2020 – Oct 2023

Bachelor of Computer Applications (BCA), GPA: 8.61

CERTIFICATIONS

- AWS Cloud Practitioner Essentials (Sep 2025)
- Programming in Python — Meta (Jul 2025)
- Java Foundations — Oracle Academy (May 2024)
